

How to print to custom size PDF without manual entry:

1. Right-click Print to PDF
  - a. Options
    - i. Printer Properties
      1. Add
        - a. Eg. 12xx
          - i. W: 12 inches
          - ii. H: 150 inches
        - b. Add
      2. Select New Size
    - ii. Cancel
2. Right-click Print to PDF
  - a. Select new size, 12xx,
    - i. Print
3. Right-click Print to PDF
  - a. Select: Post-script Custom Size
    - i. Print

This should allow you to print to PDF without having to manually enter a different height for each coal log. It is a little buggy, but it works most of the time.
